Highlights

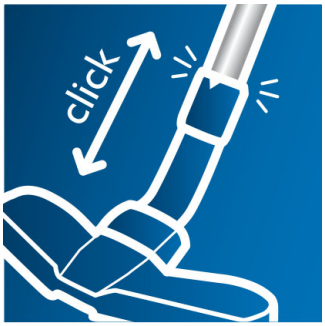
2200 Watt motor

2200 W motor generates max. 500W suction power for excellent cleaning results.

360Flex hose swivel

The Philips 360Flex hose swivel offers full 360 degrees of rotation of the hose for smooth maneuvering of the vacuum cleaner around your house.

SmartLock coupling



The unique Philips SmartLock coupling on nozzles and the telescopic tube easily connects, and disconnects, these parts during cleaning. The SmartLock coupling intuitively allows you to adjust the telescopic tube to your preferred height.

Long reach

11 m reach allows you to clean a larger surface without having to switch the plug.

TriActive+ nozzle

The TriActive+ nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It sweeps up the dust and dirt alongside furniture and walls with its two side brushes.

s-bag Ultra Long Performance

The Philips s-bag Ultra Long Performance made of five layers of high quality, non-clogging material captures even the finest dust. This excellent filtration gives you a better cleaning result and clean air in your home. The multilayer filtration also maintains the vacuum cleaners high suction power during the entire lifetime of the bag. The s-bag ULP has been tested and certified by the independent test institute TÜV Rheinland Group, proven to last up to 80% longer than a standard dustbag.

Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!

HEPA AirSeal with HEPA 13

HEPA 13 filter and AirSeal capture even the finest dust before the air is blown out for a dust-free environment and clean, allergen free air. The exhaust air is even cleaner than the air in the room.
